INVESTIGATION OF CONCENTRATION OF ECONOMIC POWER

MONDAY, FEBRUARY 12, 1940

UNITED STATES SENATE,
TEMPORARY NATIONAL ECONOMIC COMMITTEE,
Washington, D. C.

EXHIBIT NO. 2250 ¹

OPERATING RESULTS AND INVESTMENTS OF THE TWENTY-SIX LARGEST LEGAL RESERVE LIFE INSURANCE COMPANIES DOMI- CILED IN THE UNITED STATES 1929-1938

FOREWORD

The accompanying tables show the operating results and investments of each legal-reserve life-insurance company domiciled in the United States and having assets in excess of \$125,000,000. There are 26 such companies. The names and addresses of these companies, which have been arranged in the tables in approximate order of size and indicated by the abbreviations shown below, are as follows:

Metropolitan Life Insurance Co., 1 Madison Avenue, New York, N. Y.	Metropolitan.
The Prudential Insurance Co. of America, 755-69 Broad Street, Newark, N. J.	Prudential.
New York Life Insurance Company, 51 Madison Avenue, New York, N. Y.	N. Y. Life.
The Equitable Life Assurance Society of the United States, 393 Seventh Avenue, New York, N. Y.	Equitable NY.
The Mutual Life Insurance Co. of New York, 34 Nassau Street, New York, N. Y.	Mutual NY.
The Northwestern Mutual Life Insurance Co., 720 East Wisconsin Avenue, Milwaukee, Wis.	Northwestern.
The Travelers Insurance Co., 700 Main Street, Hartford, Conn.	Travelers.
John Hancock Mutual Life Insurance Co., 197 Clarendon Street, Boston, Mass.	John Hancock.
The Penn Mutual Life Insurance Co., Independence Square, Philadelphia, Pa.	Penn Mutual.
The Mutual Benefit Life Insurance Co., 300 Broadway, Newark, N. J.	Mutual Benefit.
Massachusetts Mutual Life Insurance Co., 1295 State Street, Springfield, Mass.	Mass. Mutual.
Aetna Life Insurance Co., Hartford, Conn.	Aetna.
New England Mutual Life Insurance Co., 87 Milk Street, Boston, Mass.	N. E. Mutual.
The Union Central Life Insurance Co., 3-5 West Fourth Street, Cincinnati, Ohio.	Union Central.
Provident Mutual Life Insurance Co., Market Street at Forty-sixth, Philadelphia, Pa.	Provident Mut.

¹ Entered in the record February 12, 1940. Hearings on this subject will appear in subsequent volumes.

The Connecticut Mutual Life Insurance Co., 140 Garden Street, Hartford, Conn.	Conn. Mut.
Connecticut General Life Insurance Co., Hartford, Conn.	Conn. Gen'l.
Phoenix Mutual Life Insurance Co., 79 Elm Street, Hartford, Conn.	Phoenix Mut.
Bankers Life Co., Sixth and Grand Avenue, Des Moines, Iowa.	Bankers Life.
National Life Insurance Co., Montpelier, Vt.	National Life.
Pacific Mutual Life Insurance Co., 523 West Sixth Street, Los Angeles, Calif.	Pacific Mutual.
State Mutual Life Assurance Co., 340 Main Street, Worcester, Mass.	State Mutual.
Equitable Life Insurance Co. of Iowa, Sixth Avenue and Locust Street, Des Moines, Iowa.	Equitable Iowa.
The Western and Southern Life Insurance Co., Fourth Street and Broadway, Cincinnati, Ohio.	Western & So.
The Lincoln National Life Insurance Co., 1301-27 South Harrison Street, Fort Wayne, Ind.	Lincoln Nat'l.
The Guardian Life Insurance Co. of America, 50 Union Square, New York, N. Y.	Guardian Life.

As of December 31, 1938, this group of 26 companies had admitted assets of \$24,290,000,000, which was approximately 87 percent of the total admitted assets of all United States legal-reserve life-insurance companies. These companies ranged in size from the Metropolitan with admitted assets of \$4,942,900,000 to the Guardian Life Insurance Co. with admitted assets of \$132,964,000.

The tables have been assembled from the replies to two investment questionnaires¹ of the Securities and Exchange Commission which were issued under dates of January 31, 1939, and August 11, 1939, respectively, in connection with the study of life insurance which the Commission is conducting for the Temporary National Economic Committee. Each company was asked to supply answers to identical questions. Replies to the questionnaires have been checked for mechanical accuracy and prima facie consistency, but the Commission has not gone beyond the replies themselves to verify or audit the information set forth therein. In cases in which answers to questions appeared to be inconsistent or were found to be in disagreement with annual statements, the situation was called to the attention of the companies involved and revised information submitted by such companies has been included in the tables.

The purpose of the tables is to show in summarized form the most significant financial information about each company in order that its operations may be studied in the light of the experience of other companies replying to the questionnaires. The information has been classified by lines of business and types of investment wherever feasible and is designed to reveal the relative degree of success of the various departments of each company.

An examination of the tables as a whole is important to an adequate understanding of the relative position of any given company, and

¹ Each company has supplied answers to the Investment Questionnaires except the Pacific Mutual which has not yet replied to the questionnaire of August 11, 1939. This company advised the Commission that its reply has been delayed but is in process of preparation. Pacific Mutual was organized July 22, 1936, and succeeded to the business of the Pacific Mutual Life Insurance Co. of California as a result of financial difficulties of the latter. Pacific Mutual has been excused from furnishing information with respect to the investments and operations of its predecessor company.

Pacific Mutual segregates its assets as well as its operations into four departments, the Participating and Non-Participating Departments, the Accident and Health Department, and the Corporate Department. In answer to certain questions the company has supplied information for the Participating and Non-Participating (Life) Departments only. The result is that figures on Pacific Mutual on pages 7 to 11 and 106 to 121, inclusive, are for the Participating and Non-Participating (Life) Departments only. Information relative to Pacific Mutual in other tables, unless otherwise indicated by the context, applies to the entire company.

undue emphasis should not be given to any single set of figures which are indicative of only a portion of the facts. The scale of operations of these companies is so great that almost every figure may be regarded as a statistical summary of a large number of items, many of which involve valuations or estimates representing within important latitude the opinions or interests of the managements of the companies which prepared them. Life insurance companies do not follow a uniform system of accounting, although their figures are reported annually upon a form prepared by the National Association of Insurance Commissioners. The result is that figures from different annual statements may have the same designation without being entirely comparable. The result is that a company whose accounting is conservative may at first appear in a less favorable light than one whose accounts reflect a larger element of optimism.

The figures on net change in surplus represent the end product of all operations and accounting and actuarial adjustments, and should be accepted with special caution in making comparisons between companies. These figures are affected not only by insurance operations and realized capital gains and losses, but by bookkeeping adjustments in admitted asset value of bonds, real estate, and other assets, and by increase or decrease in policy reserves due to change in basis of calculation. Some companies have made larger charges to surplus for these purposes than others. This fact should be borne in mind constantly in making comparisons. Results of annual operations are further subject to the qualification that they are affected by the extent to which uncollected bond or mortgage interest in default (or for which the time for payment has been extended) is taken into income as though it had been collected in cash, and by the extent to which companies have failed to report gains or losses on real estate sold under contract.

Whenever a zero appears in a table, it means "none"; that is to say, the company either does not engage in the line of business indicated or it does not have an asset, liability, income, or expense of the character indicated by the table. When a dash appears in a table in lieu of a figure, it means that information requested by the Securities and Exchange Commission was not furnished by the company. Due to the lack of uniformity in the methods followed by companies in the maintenance of their records, some companies have not supplied information in the form required but have substituted information of substantially similar character. In general, in such cases, the Commission has not insisted upon revised answers for the reason that it has not wished to involve the companies in undue expense or inconvenience. In certain other cases, however, in which facts of an indispensable character have not been supplied, the Commission is considering appropriate steps to obtain the information.

Footnotes have been included to indicate important qualifications of figures or tables, but absence of footnotes should not be construed as meaning that the figures are not subject to qualification. An effort has been made, however, to record the most important exceptions stated by the companies in their questionnaire replies.

¹ The trend of this ratio in any company depends to an important degree upon the extent to which premium rates have been increased during the period. The percentages as between companies should be considered only in the light of the relative levels of gross premium rates charged on comparable policies. Companies with high premium rates should be able to pay larger dividends than companies with low premium rates.

² An important portion of the business of these companies is nonparticipating.

³ Based on totals.

The figures given above for the Equitable N.Y. for 1932 to 1935, inclusive, Penn Mutual for 1937, Provident Mut. for 1935, 1936, and 1937 and the Conn. Gen'l. for 1935 and 1938 have been increased over the amount as shown in the gain and loss exhibit in lines 19 and 20 by the amounts by which policy reserves were increased due to changes in basis of calculation. Appropriate adjustment has been made in the table showing such increases in policy reserves due to change in basis.

¹ From line 42 of Gain and Loss Exhibit designated "Net (Gain or Loss) on account of accidental death benefits included in life policies excluding loading."

² Figures given above for Equitable NY for 1933 to 1938, inclusive; Travelers for 1936, 1937, and 1938; the Penn Mutual for 1936; and the Provident Mut. for 1935 and 1936 show greater profit or smaller loss than the figures shown in the gain and loss exhibit, by the amounts which policy reserves were increased due to changes in calculation. Appropriate adjustment has been made in Table 270 showing such increases in policy reserves.

³ Carried in Accident and Health Department.

⁴ National Life, 1938, \$855.

¹ From line 41 of Gain and Loss Exhibit designated "Net (Gain or Loss) on account of total and permanent disability benefits included in life policies excluding loading."² Includes "less due to maintaining average reserve as for active and disabled lives combined on active lives and/or exclusion of disabled lives."³ The figures given above for Equitable N.Y. for 1931 to 1938, inclusive; Travelers for 1930, 1931, 1932, 1933, 1935, 1936, 1937, and 1938; the Penn Mutual for 1931, 1932, 1933, and 1936; and the Provident Mut. for 1930, 1932, 1933, 1934, 1935, 1936, and 1937 show greater profit or smaller loss than the amount shown in the Gain and Loss Exhibit by the amounts by which policy reserves were increased due to changes in basis of calculation. Appropriate adjustment has been made in Table 269 showing such increases in policy reserves.

¹ Not included above are increases in reserves due to change in basis relating to Accident and Health Departments.

² The figures given above for the Equitable N.Y. do not include the increase in reserves due to change in basis of valuation of non-cancellable accident and health insurance during the years 1936, 1937, and 1938 amounting to \$592,000.

³ Equitable N.Y., Travelers, Penn Mutual, Provident Mut., and Conn. Gen'l report that figures given above for the years indicated are actually increases in reserve due to change in basis but that they do not appear under this designation in the Gain and Loss Exhibit. They are included in the figures which go to make up "(Gain or loss) from mortality under annuities excluding disability annuities", "(Net gain or loss) on account of accidental death benefits included in life policies excluding loading", and "(Net gain or loss) on account of total and permanent disability benefits included in life policies excluding loading".

⁴ From time to time flat additions were made to reserves, without changing the valuation basis. Such additions were included in the computation of the gain and loss items for disability benefits, accidental death benefits and mortality on insurance.

¹ After deduction of any payments to brokers or others out of interest as or in lieu of commissions for acquisitions of mortgages.
² Gross contract rate.
³ Included in New Mortgages Made; segregation not furnished.
⁴ Included in Purchase Money Mortgages; segregation not furnished.
⁵ Many of Mutual Benefit's Purchase Money Mortgages, and some other mortgages provide for an increasing rate of interest.
⁶ Rare, before deducting commission paid to loan correspondents: 1937—4.69%, 1938—4.75%.

NOTE.—Rates in the columns headed "New Mortgages Made" and "Purchase Money Mortgages" refer to rates upon mortgages made during the year and owned at the end of the year. In all cases the rates indicated are those in effect at respective year ends.

¹ Excludes mortgage interest capitalized as a result of refunding or recasting mortgages in connection with which new mortgage instruments were executed, and excludes other credits to mortgage interest account resulting from bookkeeping adjustment; also excludes interest accrued at date of purchase on mortgages purchased and excludes commissions paid out of interest to brokers and others.

² Includes "other credits to mortgage interest account resulting from bookkeeping adjustment." The amount of such "other credits" applicable to both farm and urban mortgages for the Prudential and the N. Y. Life, in thousands of dollars, has been as follows:

Prudential.....	1932	1933	1934	1935	1936	1937	1938	Total
N. Y. Life.....	33	60	275	329	133	288	103	1,221
	0	0	518	137	19	0	0	674

³ Gross interest from farm mortgages, in dollars, has been as follows: 1932, \$330; 1933, \$330; 1934, \$165; 1935, \$495; 1936, \$330; 1937, \$330; 1938, \$320; total, \$2,300.

⁴ Includes premiums for the payment of mortgage loans. The amount of such premiums applicable to both farm and urban mortgages of the Northwestern, in thousands of dollars, is as follows: 1932, \$11; 1933, \$11; 1934, \$5; 1935, \$16; 1936, \$15; 1937, \$20; 1938, \$22; total, \$80.

⁵ Segregation between farm and urban mortgage income not supplied by the company. Figures shown above include data on both farm and urban mortgages.

⁶ Includes interest accrued on mortgages purchased. The amount of such accrued interest applicable to both farm and urban mortgages of the Conn. Gen'l, in dollars, is as follows: 1932, \$453; 1933, \$40; 1934, \$914; 1935, \$2,309; 1936, \$8,077; 1937, \$4,924; 1938, \$8,112; total, \$21,808.

⁷ Figures are approximate as the company does not maintain separate information on farm and urban mortgage interest.

⁸ Segregation between farm and urban mortgage income not supplied by the company. Figures shown in the urban mortgage table include data on both farm and urban mortgages.

* Acquired in satisfaction of debt; excluding farm real estate under contract of sale.

† These companies have made lump sum write-offs in book value of all real estate acquired in satisfaction of debt which write-offs they have not apportioned to specific pieces of property nor divided between farm and urban real estate. The result is that the amounts stated in the tables for Farm Real Estate Owned and Urban Real Estate Owned exceed the book value at which such real estate is carried in their annual statements as follows: Metropolitan, 1936, \$15,000,000; 1937, \$15,000,000; 1938, \$15,000,000; N. Y. Life, 1935, \$5,000,000; 1936, \$15,000,000; 1937, \$15,000,000; Union Central, 1936, \$332,344.

‡ Includes farm real estate under contract of sale.

¹ Acquired in satisfaction of debt; excluding foreclosed liens subject to redemption.

² Includes amounts received from sale of rights and privileges.

³ Segregation between farm and urban not furnished; includes urban real estate.

⁴ Estimated by the Company.

⁵ Contract sales included in the year in which title actually passed rather than in the year in which sales contracts were made.

⁶ Excludes amount received from sale of rights and privileges.

FARM REAL ESTATE¹—GAIN OR LOSS FROM SALES—For each year 1932 to 1938, inclusive—Difference between sales price and book value, at date of sales contract or deeded sale whichever first occurs

Total.....								

¹ Acquired in satisfaction of debt.

² Includes foreclosed liens subject to redemption. Total gain shown above of \$2,334,754 results after reduction of book value by the amount of \$254,922 which was charged off as a decrease by adjustment in book value of real estate under contract of sale.

³ Gain or loss from real estate sold under contract not included prior to conveyance of deeded title.

⁴ Company reports ownership of contracts for delivery of 12,306,193 pounds of cotton Dec. 31, 1938, which is in addition to cash payments received.

⁵ Contract sales not included by the company in the figures given above. Such contracts which were outstanding Dec. 31, 1938, show an aggregate loss of \$751,973.

1 Acquired in satisfaction of debt.

2 In most cases companies which sell real estate under contract do not take into their accounts any gains or losses from such sales until full legal title is conveyed which may be years later. It is optional with respect to each sale whether it will be handled as a deeded sale upon which the gain or loss will be shown in the accounts immediately, or whether it will be handled as a sale under conditional sales contract in which case the gain or loss may not appear in the accounts for a considerable period thereafter. For this reason Annual Statement figures of gains and losses from sales of real estate in certain cases do not accurately reflect gains and losses from sales contracts in the years in which they are made.

3 Includes foreclosed liens subject to redemption.

4 This is the total gain (or loss) for farm and urban real-estate sales. These items are not separated in the annual statements.

1 Connecticut General deducted \$225,000 from the book value of mortgages in 1938 to determine admitted asset value. This deduction was not allocated as between farm and urban mortgages, and therefore is not taken account of in the above figures.

Note.—Not included in the above table are ground rents owned by Provident Mut. and Western & So. The amounts of such ground rents expressed in thousands of dollars are as follows:

	1929	1930	1931	1932	1933	1934	1935	1936	1937	1938

¹ After deduction of any payments to brokers or others out of interest as or in lieu of commissions for acquisitions of mortgages.
² Before deduction of any payments to brokers or others out of interest as or in lieu of commissions for acquisition of mortgages.
³ Rates for Farm and Urban Mortgages combined; segregation not furnished.
⁴ Included in "New Mortgages Made", segregation not furnished.
⁵ Many of Mutual Benefit's Purchase Money Mortgages and some other mortgages provide for an increasing rate of interest.

NOTE.—Rates in the columns headed "New Mortgages Made" and "Purchase Money Mortgages" refer to rates upon mortgages made during the year and owned at the end of the year. In all cases the rates indicated are those in effect at respective year ends.

1 Each company reported the 25 metropolitan areas in which the largest amounts of its mortgages were placed. The 10 areas summarized here are those which were most important to the companies as a group.

2 Percentage of total mortgages owned secured upon property located in above 10 metropolitan areas.

3 Including foreclosed liens subject to redemption.

¹ Excludes mortgage interest capitalized as a result of refunding or recasting mortgages in connection with which new mortgage instruments were executed, and excludes other credits to mortgage interest account resulting from bookkeeping adjustment; also excludes interest accrued at date of purchase on mortgages purchased and excludes commissions paid out of interest to brokers and others.

² Includes "other credits to mortgage interest account resulting from bookkeeping adjustment." The amount of such "other credits" applicable to both farm and urban mortgages for the Prudential and the N. Y. Life, in thousands of dollars, has been as follows:

	1932	1933	1934	1935	1936	1937	1938	Total
Prudential.....	33	60	275	329	133	288	103	1,221
N. Y. Life.....	0	0	518	137	19	0	0	674

³ Includes premiums for the prepayment of mortgage loans. The amount of such premiums applicable to both farm and urban mortgages of the Northwestern, in thousands of dollars, is as follows: 1932, 11; 1933, 1; 1934, 5; 1935, 16; 1936, 15; 1937, 20; 1938, 22; total, 60.

⁴ Segregation between farm and urban mortgage income not supplied by the company. Figures shown in the farm mortgage table include data on both farm and urban mortgages.

⁵ Includes interest accrued on mortgages purchased. The amount of such accrued interest applicable to both farm and urban mortgages of the Conn. Gen'l., in dollars, is as follows: 1932, 432; 1933, 40; 1934, 914; 1935, 2,369; 1936, 8,077; 1937, 4,924; 1938, 5,112; total, 21,808.

⁶ Figures are approximate as the company does not maintain separate information on farm and urban mortgage interest.

⁷ Not included in the above table is income from ground rents owned by Western & S.W. The amounts of such income from ground rents, expressed in thousands of dollars, are as follows: 1932, 0; 1933, 19; 1934, 59; 1935, 77; 1936, 124; 1937, 177; 1938, 239; total, 686.

⁸ Segregation between farm and urban mortgage income not supplied by the company. Figure shown above include data on both farm and urban mortgages.

1 Excludes mortgage interest capitalized as a result of refunding or recasting mortgages in connection with which new mortgage instruments were executed, and excludes other credits to mortgage interest account resulting from bookkeeping adjustment; also excludes interest accrued at date of purchase on mortgages purchased and excludes commissions paid out of interest to brokers and others.

2 Includes "other credits to mortgage interest account resulting from bookkeeping adjustment." The amount of such "other credits" applicable to both farm and urban mortgages is shown in the footnote to Table 215.

3 Includes premiums for the prepayment of mortgage loans. The amount of such premiums applicable to both farm and urban mortgages is shown in the footnote to Table 215.

4 Segregation between farm and urban mortgage income not supplied by the company. Figures shown in the farm mortgage table include data on both farm and urban mortgages.

5 Includes interest accrued on mortgages purchased. The amount of such accrued interest applicable to both farm and urban mortgages is shown in the footnote to Table 215.

6 Figures are approximate as the company does not maintain separate information on farm and urban mortgage interest.

7 Not included in the above table is income from ground rents owned by Western & So. Such income from ground rents expressed as a percentage of mean admitted asset value of ground rents is as follows: 1932, 0; 1933, 3.83; 1934, 5.18; 1935, 4.94; 1936, 4.77; 1937, 4.45; 1938, 4.74.

8 Segregation between farm and urban mortgage income not supplied by the company. Figures shown above include data on both farm and urban mortgages.

9 Based on totals, excluding Lincoln Nat'l.

1 Acquired in satisfaction of debt; excluding urban real estate under contract of sale.

2 These companies have made lump sum write-offs in book value of all real estate acquired in satisfaction of debt which write-offs they have not apportioned to specific pieces of property nor divided between farm and urban real estate. The result is that the amounts stated in the tables for Farm Real Estate Owned and Urban Real Estate Owned exceed the total amount at which such real estate is carried in their annual statements as follows: Metropolitan—1936, \$15,000,000; 1937, \$15,000,000; 1938, \$15,000,000. N. Y. Life—1935, \$5,000,000; 1936, \$15,000,000; 1937, \$15,000,000. Union Central—1936, \$32,344.

3 Includes urban real estate under contract of sale.

4 Not including foreign property carried in annual statement at \$50,000 from 1929 to 1934, inclusive; \$84,000 in 1935; \$34,000 in 1936 and 1937; and \$20,000 in 1938.

1 Acquired in satisfaction of debt.

2 In most cases companies which sell real estate under contract do not take into their accounts any gains or losses from such sales until full legal title is conveyed which may be years later. It is optional with respect to each sale whether it will be handled as a deemed sale upon which the gain or loss will be shown in the accounts immediately, or whether it will be handled as a sale under conditional sales contract in which case the gain or loss may not appear in the accounts for a considerable period thereafter. For this reason Annual Statement figures of gain and losses from sales of real estate in certain cases do not accurately reflect gains and losses from sales contracts in the years in which they are made.

3 Includes Foreclosed Liens Subject to Redemption.

¹ Reserves increased to cover non-deduction of deferred fractional premiums at the death of the assured.

² During the period December 31, 1928 to December 31, 1933 the Company was in the process of changing the valuation basis of all legal reserve life insurance from the American Experience 3½% Select and Ultimate Reserve to the American Experience 3½% Full Net Level Premium Reserve. This resulted in the changes shown in the table for the years 1929 to 1938, inclusive.

³ Conditions in 1934 seemed to indicate the advisability of increasing reserves on legal reserve life insurance to a stronger basis than the American Experience Table with 3¼% interest. Toward that purpose the Company increased the reserve liability on legal reserve life insurance carried in the December 31, 1934 statement by \$900,000. By 1936 many companies had made changes in reserve bases rather generally leaving reserves on old insurance on the American Experience 3½% basis, and placing all new business on the American Experience 3% reserve basis. The Company decided that this course was the best one, and therefore, all insurance issued since January 1, 1936, has been valued on the American Experience 3% Table and reserves on all business issued prior to 1936 are carried on the American Experience 3½% Table. This change in 1936 resulted in a decrease of \$900,000 in reserves carried on insurance issued prior to 1936.⁴

⁴ From time to time flat additions were made to reserves held for disability and accidental death benefits and for substandard insurance, without however changing the valuation basis. Such additions were included in the computation of the gain and loss items for disability benefits, accidental death benefits and mortality on insurances, respectively.

¹ Equitable NY, Penn Mutual, Provident Mut., and Conn. Gen'l. report that the figures given above for the years indicated are actually increases in reserve due to change in basis but that they do not appear under this designation in the Gain and Loss Exhibit. They are included in the net figures which go to make up "[Gain or loss] from mortality under annuities excluding disability annuities," which is line 20 of the Gain and Loss Exhibit.

² Reserves on Single Life Deferred Annuities arising from supplementary contracts were changed from the McClintock 3 percent table to the combined annuity 3 percent table. ³ In 1938 it was decided that in the light of current experience, the Company should gradually strengthen reserves held for supplementary contracts involving life contingencies from the Makehamized American Experiences Table with 3 percent interest to the Combined Annuities Table with 3 percent interest. The sum of \$200,000 was added to the reserve on supplementary contracts involving life contingencies to meet part of the increase in reserves on that item which would be necessary because of this change in reserve basis."

¹ Reserve, according to company estimates, which would result for annuity contracts in force on Dec. 31, 1938, if all of each company's annuity contracts involving life contingencies (including original and supplemental annuity benefits, but excluding disability contracts) were revalued on the basis of mortality, interest, and other assumptions under which each company is now issuing annuity contracts. All of the above companies set up reserves on current business on the basis of the 1937 Standard Annuity Table (Modified) for individual annuities, except Mutual Benefit which continues to set up reserves on the basis of the Combined Annuity Table. The interest assumption used is 3 percent (or approximate equivalent) except for the N. Y. Life and Mutual N. Y. which use 2½ percent on their participating annuities. Certain companies in furnishing these figures have stated that in their opinion reserves as high as those required on the basis used for current issues are not necessary for all annuity contracts in force.

² The amount of individual and group annuities in force Dec. 31, 1938 was \$534,479,190 expressed in terms of annual income (to annuitants). Of this amount \$66,716,055, or 12.4 percent, was in force in the Metropolitan and \$169,627,786, or 31.8 percent, was in force in the Equitable N. Y. If all annuity reserves were computed on the basis under which annuity contracts are now being issued, the increase in reserves involved for the remaining 65.8 percent of the business in force as shown above would be \$181,358,000.

³ 1935 to 1938, inclusive; figures for prior years not furnished.

¹ This item treated as an investment loss and not as a Special Fund in the Gain and Loss Exhibit.² As of Dec. 31, 1938 this reserve was allocated to lines of business as follows: Ordinary, \$56,263,542; Total and Permanent Disability, \$3,461,972; Accidental Death Benefits, \$671,101; Annuities, \$5,237,022; Group Annuities, \$5,175,403; Group Life (in addition to the specific reserve for Group Life Insurance given above), \$896,813; Industrial, \$45,492,166; Accident and Health, none.³ "At the end of 1931 the company valued stocks and nonamortized bonds at Dec. 31, 1931, market quotations as required by some States instead of the 'convention' values permitted by the National Convention of Insurance Commissioners. At the end of 1932, however, the 'convention' values were used because the Insurance Commissioners desired to obtain uniformity in practice in the various companies, and a 'Special Contingency Fund' was set up in the amount of \$36,630,709.74, which exactly represented the difference between the 'convention' values of stocks and nonamortized bonds and the actual Dec. 31, 1932, market value thereof." At the end of 1933 a "Special contingency reserve" of \$21,014,507.36 representing the difference between asset values of stocks and nonamortized bonds and actual Dec. 31, 1933 market quotations was established.⁴ Changes up or down in special investment reserve reflect in a general way the change in market quotations on stocks and nonamortized bonds.⁵ In the company's annual statement for 1932 the "Unassigned Funds (Surplus)" was designated "Contingency Reserve."

NET COST OF INSURANCE
TO POLICYHOLDERS

NET COST AND DISCOUNTED NET COST

"Net cost" figures are presented in Tables 284 to 298, inclusive. For comparison, such "net costs" have been computed on the basis of \$1,000 of insurance for whole life, 20-payment life, and 20-year endowment policies. In the case of each such policy, "net costs" are shown for each of three ages: 25, 35, and 45, respectively. In instances in which policies issued do not conform precisely to the standard plans, the nearest equivalent policy was analyzed, and attention has been directed to principal differences in such policies by means of footnotes. In cases in which companies issue both participating and nonparticipating policies under the above plans, the "net costs" of both have been computed. In the cases of companies which issue policies on the above plans, but only in units greater than \$1,000, such as \$2,500 or \$5,000 minimum, the policies have been classified separately. In these cases also "net costs" have been computed on the basis of \$1,000 of insurance. In cases in which the only whole life policies issued in minimum units greater than \$1,000 were modified life policies which require a lower premium during an initial period of 1 to 5 years and thereafter a level premium at a higher rate, these policies are shown separately and designated "Modified Life Policies" in the tables.

"Net costs" in the tables are based upon annual premiums and do not include extra premiums for disability benefits or double indemnity for accidental death. The "net costs" are calculated on the basis of premium rates, surrender values, and other provisions of policies issued in 1939; and for participating policies the dividends assumed are those shown in dividend illustrations of the respective companies as published in 1939.

The "net cost" figures have been derived in the manner generally used by publishers of insurance data and by life insurance agents in the solicitation of business. The method employed in deriving these "net cost" figures is as follows: For each of the indicated periods there is deducted from the total gross premiums payable during the period the sum of the amount of dividends which would be paid at the various durations on the assumption of the payment of dividends in accordance with the current dividend scale. The difference represents the "Net Cost—Policy CONTINUED." The calculation of "net costs" on the assumption that the policy be surrendered at the end of the stated period and the cash value paid to the policy holder involves only the subtraction of the surrender value provided in the policy (and cash settlement dividend, if any) to determine the figure for "Net Cost—Policy SURRENDERED."

It may be pointed out that this method of deriving "net costs" is subject to the objection that one dollar of premium paid or dividends received in the early years of the contract is given equal weight with one dollar of premiums, dividends, or cash values in the later years of the contract. This disregards the element of interest.

As a result this method of deriving "net costs" shows comparative figures which generally favor:

- (1) Participating policies over nonparticipating policies;
- (2) High premium participating policies over low premium participating policies;
- (3) Participating policies which pay "extra" or "special" dividends at quinquennial durations or in the later policy years over those participating policies under which the annual dividends increase from year to year and are not supplemented by extra or special dividends.

In order to avoid the objections to "net cost" calculations which result from disregard of the interest factor in calculating the different values of money paid at different times, Discounted Net Costs are presented in Tables 300 to 314, inclusive. In computing the figures for Discounted Net Costs, the procedure followed was similar to that used in deriving "Net Costs" with the following differences. Premiums paid were not considered as equivalent to their aggregate amount, but each premium paid during the period was discounted back to the time of issuance of the policy at an assumed rate of $3\frac{1}{2}\%$ per annum. Similarly, dividends and the amount available upon surrender of the policy at the end of the period were

discounted back to the time of issuance of the policy at the same assumed rate. The fundamental weakness in "net cost" calculations as applied to participating policies is that their use implies the assumption that the current dividend scale will be continued for the period involved. In these tables calculations have been prepared on the basis of 10- and 20-year periods. Nothing in previous experience indicates that any scale of dividends will prevail for such a substantial period of years. In recent years, for example, such factors as the trend of interest rates, mortality, disability experience, investment gains and losses, and operating expense have combined to produce a marked decline in dividend rates.

Those interested in determining the contractual maximum net cost under the terms of the policies illustrated may do so by adding the total assumed figures for dividends for the period (including cash settlement dividend, if any) to the figures given in the columns showing "net cost." For example, the standard whole life participating policy at age 25 issued by the Aetna shows a Ten-Year Net Cost Policy CONTINUED of \$162.20, and a Ten-Year Net Cost Policy SURRENDERED end of tenth year of \$73.20. To obtain the contractual maximum net cost under this policy, the figure of 10-year dividends, \$42.60, should be added to the net cost figures. This produces a contractual maximum Net Cost Policy CONTINUED of \$204.80, and a contractual maximum Net Cost Policy SURRENDERED end of tenth year of \$115.80. The contractual maximum Discounted Net Cost may be derived from Tables 300 to 314, inclusive, in a similar manner.

¹ Footnotes call attention to variations from the straight 20-year Endowment Policy contract.

² Includes discounted value of "extra" dividend payable at end of fifth policy year.

³ Includes discounted value of "extra" dividends payable at end of tenth policy year.

⁴ Includes discounted value of "extra" dividends payable at end of tenth and fifteenth policy years as follows: Tenth year, \$5; fifteenth year, \$5.

⁵ Includes \$25.13, the discounted value of "maturity" dividend, payable in 33 years to guaranteed maturity value of policy, when policy matures at end of twentieth year. (After a policy has been carried for 17 full years, a "cash settlement dividend is payable upon surrender, the amount of such dividend increasing with duration.")
